

New for 1961**Supplement to 1960 Catalog**

Dear Friends:

In order that we may keep our prices down, and still bring you all of the best and latest varieties, for your growing pleasure, we are adding this supplementary list, to our 1960 catalog, instead of reprinting, for this season.

For your convenience, we have enclosed also a printed ORDER BLANK—WITH NEW LOWER PRICES, ON MANY VARIETIES. (Please do not use prices in catalog, when making up your order this spring, but check the printed order blank. Thank you for your co-operation.

NEW 1961 ADDITIONS TO OUR EARLY ENGLISH GARDEN EXHIBITIONS

NEW "EARLY FLOWERING GIANTS"

JAPANESE TYPE IRREGULAR BLOOMS OF LARGE SIZE

(Grow 4-6 blooms per plant, disbudded.)

(75¢ Each — per 3 of one color — \$1.50)

GIANT AMBER—Wide petalled blooms of large size in soft amber color. Strong plants with large foliage.

GIANT BRONZE—Huge blooms of compact semi-incurving form. Large compact plants.

GIANT PINK—Light almost a blue pink, shaggy blooms of large size and incurving form. One of the earliest to bloom.

GIANT ROSE—Large deep reflexing bloom of rich rose color, with wide firm petals.

GIANT YELLOW—The earliest of this group to bloom, in a beautiful shade of primrose yellow. Very large deep incurving bloom with wide petals, the lower petal curling downward. Very compact short grower, self branching, making a fine pot plant. Everyone noticed and loved this one. A **Must** for early shows, Oct. 5th.

NEW 1961 ADDITIONS TO OUR LARGE EXHIBITION VARIETIES

(BLOOM LATE OCT. TO EARLY NOV.) disbud to 1-3 blooms.

Each 75¢ — per 3 of one name \$1.50

- CAVALCADE**—Velvet crimson full deep reflex for show. A rich bold addition to shows.
- DIPLOMAT**—Very large white incurving bloom. Waxy firm petals, giving bloom great refinement; and substance. Excellent for exhibition.
- DRAGOON**—Very bright incurving bronze of great substance. With gold reverse. A must for exhibition, strong straight grower.
- HARMONY**—A glowing light orange bronze. Very bold type flower, with iridescent quality that is hard to describe. Incurving form—unusual coloring. One with a future.
- LEO**—Rich bright violet color—with a waxy sheen. Tightly incurving flower of great merit, a much needed color in its type. Straight, strong, upright grower. Luxuriant quality.
- PINK MAID**—Wonder bright pink, silver reverse, nice firm flower of incurving formation, very pleasing.
- RONA**—Clear bright light yellow of beautiful form. Solid true incurving form of good size.
- SOUV D'GAUTHIER**—Very large full rosy purple, with silver reverse. Deep full reflex, with incurving center.
- SUNNYSLOPE GRANDEUR**—Very large wide petalled skirted incurve of Pure white. A Beauty.
- TOWN TALK**—Crimson scarlet with gold reverse. Large solid reflexing flower of good substance, strong grower of medium height. Rich bold quality.
- UNIQUE**—Truly unique color of rosy salmon—no other like it. Blooms have hard spiky petals. Full double wide petals, stay firm like a very large pom.
